# What Energency Does

Energicity is a personal branding company for professionals. We help professionals build their online presence through useful content, keyword research, websites, social media content, and organic branding strategy.

**Our core belief:** Professionals should focus on what they do best. We help them present their knowledge, services, and expertise online in a professional way.

## Who We Help

- Doctors, lawyers, teachers, consultants, coaches, astrologers, and other service professionals.
- Professionals who want better trust, better visibility, and a stronger online identity.
- Professionals who have skills and services but do not have enough time to manage branding regularly.

## Why Personal Branding Matters

In today's digital age, people often check your online presence before they trust you. A strong personal brand helps professionals build trust, attract clients, and grow their business.

### TRUST

Helpful content creates confidence before clients contact you.

### AUTHORITY

Regular content shows knowledge, expertise, and professional identity.

### GROWTH

Organic visibility supports long-term value and steady growth.

# Our Organic Branding Services

- **Brand research:** We study your profession, services, target clients, competition, and long-term goals.
- **Keyword research:** We find SEO-friendly, trending, client-focused, and service-related keywords.
- **Website support:** We help build or improve your professional website and website content.
- **SEO blog writing:** We create keyword-based blogs to improve online visibility and brand authority.
- **Facebook content:** We create educational, problem-solving, trending, and service-related posts.
- **LinkedIn content:** We develop professional content to present your expertise and build trust.
- **Quora answers:** We answer relevant questions to increase visibility, trust, and authority.
- **Monthly report:** We share website performance, content visibility, engagement, and branding progress.

## How We Work Every Month

- Research your brand, keywords, competition, and client needs.
- Create useful content for website, blog, LinkedIn, Facebook, and Quora.
- Track website growth, blog performance, visitor response, and social media engagement.
- Improve strategy according to research, response, and brand requirement.

# Why We Focus on Organic Branding

Energicity focuses on organic growth, not mainly paid advertising. Paid ads can bring quick visibility, but when ads stop, visibility may decrease. Organic branding takes time, but it builds steady, stable, and long-term growth.

## Organic Branding

- Builds trust through useful content
- Improves authority gradually
- Creates long-term visibility
- Supports stable brand value

## Paid Advertising

- Can give quick visibility
- Requires continuous ad budget
- Visibility may reduce after stopping ads
- May feel less natural to customers

## Our Honest Promise

We cannot guarantee a fixed result within two or three months because organic branding depends on profession, competition, keyword difficulty, and market demand.

But we can assure you that we will work consistently and strategically on your brand. Over time, this can improve your online visibility, trust, and client enquiries.

**Organic branding may take time, but it creates trust, authority, and stable growth.**

# One Standard Plan for Every Client

We treat every client equally, and we provide the same level of service to every client. That is why we do not offer Basic, Starter, or Advanced packages.

Monthly Service Charge

**Rs. 9,999**  
per month

First Three Months Advance

**Rs. 29,997**  
initial advance payment

## Payment Policy

- For the first three months, we take advance payment together because initial work needs deep research, strategy planning, keyword research, and brand setup.
- After the first three months, you can continue with monthly advance payments.
- You can stop the service anytime after completing the initial three-month period.
- Website creation, if required, will be charged separately.

## What We Need to Start

- Brand name and service details.
- Domain details and website access, if you already have a website.
- Facebook page, LinkedIn profile or page, and Quora profile details.
- Information about your target clients, services, and business goals.
